Care Instructions for Chenille Furniture:

In order to maintain the original appearance of your Chenille furniture, please follow the simple care procedures below:

- Avoid exposing furniture directly to sunlight or heating and air conditioning outlets. Sunlight and/or exposure to heating and air conditioning outlets will fade/damage Chenille.
- Vacuum or wipe with a soft cloth to remove dust.
- Hardware may loosen over time. Periodically check to make sure all connections are tight. Re-tighten if necessary.

For items used on wooden floors, hard surfaces or carpets, it is recommended to install protective pads under all legs and supports to avoid or prevent damage/scratches and discoloration.
